Auto-Pay
Disabled
Configure automatic billing by adding a card to your account. When the balance nears the auto-pay threshold, we will attempt to reload Runpod credits by billing your default saved card max once per hour for the auto-pay amount that is configured below.

Quick start
See examples of how to interact with this endpoint using different programming languages.
This endpoint is a load balancing endpoint. All HTTP requests sent to
https://q1fimv3ptk3rvh.api.runpod.ai
will be distributed across available workers.
Your workers should be running an HTTP server on the port specified in the PORT environment variable, and have an accessible /ping endpoint on an HTTP server on the port specified in the PORT_HEALTH environment variable.
